

IFC File Analyzer

Two programs

1. **IFC-File-Analyzer.exe** – IFC File Analyzer graphical-user-interface (GUI) version
 - a. Click on the icon to start or drag and drop an IFC file on the icon
 - b. Use F5 and F6 to adjust the Status tab font size, Use F7 to change the font type
2. **IFC-File-Analyzer-CL.exe** – IFC File Analyzer command-line version, no user interface
 - a. From a Command Prompt, change to the directory where IFC-File-Analyzer-CL.exe is located and enter: IFC-File-Analyzer-CL C:/pathname/myifcfile.stp
 - b. This version can be 'called' by or embedded in other programs
 - c. You must run the GUI version once before running the command-line version.
 - d. The command-line version will use the options that were set the last time the GUI version was run.

Former names

The programs used to be named **IFC_Excel.exe** and **IFC_Excel_CL.exe**.
